Walking Wisdom

Choreography that supports relationship with everybody, city places, creativity and developing city design that gives attention to the slow enduring wisdom of the body, place and memory. Silent walking, mapping and contemplative dance practice are tools to engage our natural intelligence and support ease and connection between bodies, space and place.

Outside the House of Judgment
we arrive to connect and create
an intelligent city

Based in the principles

Of ease and playful delight

Where we share place and the alchemy of our imaginations

We welcome our similarities and differences

Knowing every- body –matters

*Outside ideas of right doing and wrong doing
there is a field.*

I'll meet you there.
